

Le Lion d'Angers, 2024/03/25

• Customer N°: 6191

• Sample: _____ **GUMMIES COLLAGENE** _____

Batch number: _____

• **SAMPLING:**

Received in laboratory (dd/mm/yy): 20/03/24

Analyzed on (dd/mm/yy): 20/03/2024

• **RESULTS:**

Framework: _____

Parameter	Method	Result	Criterion	Conclusion
Total aerobic germs / g	European Pharmacopoeia § 2.6.12 (excluding validation)	< 1 000	100 000	Satisfactory
Total Yeasts-molds / g	European Pharmacopoeia § 2.6.12 (excluding validation)	100	10 000	Satisfactory
Gram-negative bacteria resistant to bile salts / g	European Pharmacopoeia § 2.6.13 (excluding validation)	< 100	10 000	Satisfactory
Escherichia coli / g	European Pharmacopoeia paragraph 2.6.31 (excluding validation)	Absence	Absence	Satisfactory
Staphylococcus aureus / g	European Pharmacopoeia § 2.6.13 (excluding validation)	Absence	/	/
Salmonella / 25 g	European Pharmacopoeia paragraph 2.6.31 (excluding validation)	Absence	Absence	Satisfactory

• **CONCLUSION:**

Satisfactory sample

The conclusion only considers the results of the analyses performed and for which a reference criterion is edited, except when depending on a ratio. The conclusion is given subject when the result is in the form Ne'.

The measurement uncertainty is not taken into account to provide a conclusion.

The results recorded only concern the sample submitted to the analysis.

The reproduction of the present report is only authorized in its entirety.
